

BK7:

Precision Glass & Optics is pleased to offer the following optically polished BK-7 substrates available for immediate delivery. These polished substrates are excellent for thin film coatings or other optical applications that may require immediate delivery. The substrates are 6.5" square and come in thicknesses ranging from .020" to .230" thick.

PG&O also offers a variety of shaping services such as Scribing, Edging to diameter, CNC machining and other services that may be required.

For technical data on this material please see our materials section at pgo.com for BK-7

BK7:

Part Number	Size	Thickness	Thickness Tolerance	SurfaceQuality
OBK 020	6.5" x 6.5"	.020"	±.005"	80/50
OBK 040	6.5" x 6.5"	.040"	±.005"	80/50
OBK 080	6.5" x 6.5"	.080"	±.005"	80/50
OBK 120	6.5" x 6.5"	.120"	±.005"	80/50
OBK 230	6.5" x 6.5"	.230"	±.005"	80/50

Delivery dependent on stock availability at the time of order.
